

RESTORATION AND DEVELOPMENT

«As a consequence of a large-scale Russian military invasion of Ukraine, 390 buildings in the capital were damaged by artillery shelling. 220 of them are residential buildings. Other ones are medical facilities, kindergartens, schools, social welfare institutions, and administrative buildings. Our goal is to help people return to their homes as soon as possible, and make the city recover and continue to develop and implement changes».

Vitaliy Klitschko, the Mayor of Kyiv

The background features decorative wavy lines. The top section is a dark blue wave, followed by a white space, and then a yellow wave at the bottom. The text is centered in the white space.

HOUSING AND UTILITIES INFRASTRUCTURE

Construction of a fire station at Mykoly Zakrevskoho Str, in the 3rd microdistrict of the municipal zone of Vyhurivshchyna-Troieshchyna residential area

Social and economic impact of project implementation:

- ensuring fire safety of about 370 thousand inhabitants of Desnianskyi district;
- eliminating the consequences of emergencies, warfare, etc.;
- the capacity of specialized vehicles is 6 units;
- employer-rented housing for 142 people (72 apartments).

Project cost:
UAH 504.8 million.

The background features abstract, wavy, organic shapes in shades of blue and yellow. The top portion is a dark blue wave, and the bottom portion is a yellow-to-orange gradient wave. The central area is white, providing a space for the text.

TRANSPORT AND TRANSPORT INFRASTRUCTURE

Construction of the Podilsko-Vyhurivska line of the Kyiv subway from the Ring Road to the Vyhurivshchyna-Troieshchyna residential area from the electric engine house

Social and economic impact of project implementation:

- increasing the length of subway networks by about 30 km and 18 stations;
- providing high-speed transport links between the left-bank areas and the right-bank part of the city;
- improvement of transport service for 525 thousand inhabitants of the left-bank residential areas of Dniproviskyi and Desnianskyi districts of Kyiv (Lisovyi, Voskresenka, Raiduzhnyi, Vyhurivshchyna-Troieshchyna, future housing development of Rusanivski gardens);
- creating about 1,900 new workplaces.

The expected cost of the project:
UAH 76,300.0 million.

Construction of the Syretsko-Pechersk subway line section from the Syrets station to the Vynohradar residential area from the electric engine house in Podilsk district

Social and economic impact of project implementation:

- increasing the length of metro networks by 7.39 km and 4 stations;
- improving transport services for about 450 thousand inhabitants of Obolon and Podil districts;
- creation of more than 660 new workplaces;
- reduction of environmental impact on the northern part of the city.

Project cost:
UAH 11,186.6 million

The amount of funds for completion is **UAH 7,067.4 million.**

Construction of the Podilsk pedestrian bridge over the Dnipro river in the city of Kyiv

Social and economic impact of project implementation:

- improvement of transport communication between Troieshchyna, Vyhurivshchyna, Voskresenka, and Raiduzhnyi residential area with the right-bank part of Kyiv;
- ensuring the construction of a subway branch to the Troieshchyna residential area;
- the capacity is 7.0 thousand cars per hour.

Project cost:
UAH 19,921.6 million

The amount of funds for completion is **UAH 6,849.3 million.**

Reconstruction of the transport junction at the intersection of Bogatyrskaya Str and Polarna Str

Social and economic impact of project implementation:

- improving the traffic safety;
- improving the ecological state of the city;
- increasing the capacity of the transport hub to 13.6 thousand cars per hour.

The expected cost of the project:
UAH 933.0 million.

Construction of multilevel parking at
Popudrenka street near the Lisova subway station in the
Desnianskyi district of Kyiv

Social and economic impact of project implementation:

- plot area is 23,800 m²;
- 2-level parking for 1,370 parking slots;
- preventing chaotic parking at the entrances to the city and near the subway station to reduce the load on the city's transport system.

The expected cost of the project:
UAH 840.0 million.

Reconstruction of garages for multi-level parking at the address: Kyiv, Shevchenkiivskyi district, 19 Kyaniivskyi lane

Social and economic impact of project implementation:

- 4-level parking for 414 parking slots;
- total parking area is 12,850 square meters;
- the area of the sports ground is 870 square meters;
- playground area is 250 square meters;
- possibility of parking for the visitors of Peizazhna Alley and Andriivskyi Descent.

The expected cost of the project:
UAH 360.0 million.
